About Luby Equipment

Luby Equipment traces its beginnings to 1977, when Bob Luby bought Machine Maintenance and Equipment Company. He had begun his career in heavy equipment sales and had experience in everything from cranes to excavators. Initially, the company focused on maintaining and repairing heavy industrial equipment and has grown to include three divisions that sell and service a broader range equipment—the construction division, the oilfield division, and the power generation division.

Equipment

We carry a wide selection of high quality new and used equipment available for rental, purchase, or lease. Find whatever you need from the brands you trust for utility, road maintenance, demolition, material handling, or trenching projects.

Service, On-Site or in Our Shops

Maximize your uptime with service from our expert technicians. We offer in-shop and on-site service 24 hours a day, 7 days a week. Our technicians have completed extensive training for certification on the equipment they service. We also offer fleet services to help you reduce your overhead, with flat prices for all routine maintenance.

Parts

Luby Equipment has a multimillion dollar parts inventory, so we can deliver your parts as quickly as possible. Search our online catalog and call the location nearest you for convenient pickup service. If the part you're looking for isn't in stock, we'll locate it through our extensive parts network.

Concrete Supplies

We help keep your construction project on schedule and on budget by providing quality construction materials and tools. Our inventory of contractor supplies is extensive, available for immediate delivery to your jobsite.
